

A NEW CRISIS IN FRANCE

THE GOBLET MINISTRY HAND IN THEIR RESIGNATIONS.

They Leave the Chamber as Soon as It Rejects Goblet's Financial Policy—Not Plans for Cutting Down Expenses.

PARIS, May 17.—In the debate on the budget to-day M. Ducloux attacked the financial policy of the republic. M. Laffon spoke in support of the Government and condemned the action of the Budget Committee.

M. Rouvier said the committee could not accept the Government's proposals for increase of taxation and expenditures.

President Goblet said the present financial situation was the result of the accumulation

error in their governments. He was ready to work with the committee with the view of providing the Government with the necessary information desired to balance the budget and to pay the taxation if necessary. He renounced the committee with demanding reforms which it knew to be impracticable from a budget point of view. (Cries of dissent.) He found nothing that justified the committee's hostility either in the Government's internal policy or in its foreign policy, neither of which was to his wisdom and to his liking. He was ready to co-operate again with the committee or to leave office, as the Chamber might decide. (A loud cheer.) The Chamber, by a vote of 275 to 259, rejected the proposals of the Government, and the Government resigned. M. Ribot then announced that the Cabinet would resign. As soon as this announcement was made, the members of the Cabinet left the House.

Afterward a resolution was proposed by the Budget Committee affirming the necessity for adopting the budget of 1914. The Chamber's resolution was adopted by a vote of 312 to 14.
